

BRIDGEVALLEY

TechStart Program

Choose your path to high-paying, in-demand, and sustainable careers with the help of BridgeValley's TechStart program!

Sometimes you just need a boost to get started! At BridgeValley Community and Technical College, our FREE TechStart program offers a quick-start approach to high-paying, in-demand, sustainable careers in technology. Students will have the opportunity to explore the technical programs offered at BridgeValley such as Engineering Technology, Computer/IT, Process Technology, and Advanced Manufacturing Technology. Students will learn about technology jobs and even get to meet employers in the field!

Students have the option to test into college-level math and English classes, rather than having to take the entry-level classes. Additionally, students get personalized assistance with admissions, financial aid, student services, registration, and paid internships.

Class starts June 7th - secure your spot and register today! Learn more [here](#)!
